

# LYTLE LAKE WATER CONTROL & IMPROVEMENT DISTRICT

1013 Energy Drive, Abilene, TX 79602° P.O. Box 3457, Abilene, TX 79604° (325) 690-0835

October 31, 2015

Dear Friends of LLWCID:

The Lytle Lake Water Control and Improvement District (District) has successfully contracted for management services with David Bell (Bell Engineers & Consultants, Inc.) for the last several years. David has been a valuable asset to the District since its formation, was essential in the completion of the dredging project and has been dependable in the District's day to day operations. As of October 31, 2015, the District will no longer contract with Bell Engineers & Consultants for management services. We wish David well in enjoying his retirement and future endeavors!

As of November 1, 2015, the District will be under the executive management and administration of Cordry Contract Services. Shawn Cordry is very familiar with the management of the District as she has served as the Board, Records and Administration Manager to the District for the last 15 years. The Board of Directors is optimistic for the District's opportunities in the near future and requests you give Shawn your full support.

Please take note of the contact information for the District:
